

Title of the project

A second review report

(Submitted by **Candidate's Name**, Roll No: _____ : Reg No: _____)

1 NEED FOR THE STUDY

Why this study has been undertaken

2.1 PRIMARY OBJECTIVE

(Any changes in the objectives after the first review can be documented and highlighted)

The primary objective defines the aim of the study in detail.

2.2 SECONDARY OBJECTIVES

- A break down of the primary objectives. The achieving of the secondary objectives would result in the achieving of the primary

3 METHODOLOGY

The methodology must be elaborate at this stage, on the data requirement, research instrument used for data collection, the method of preparing the research instrument, the sampling framework, the sample size, the hypotheses tested and the tools used for analysis.

4 DATA COLLECTED.

A comprehensive account of the data collected (both primary and secondary). The filled-in questionnaires (hard/ soft copies) must be available at the time of the second review and at the time of Viva –voce. The data file must be available at the time of second review and the viva-voce (as a soft copy).

5. DATA ANALYSIS

Calculations showing the results obtained out of the study using statistical tests and inferences derived must be elaborated. The results obtained must provide answers to the stated objectives. All calculations must be based on the data file as in the previous section. Hypotheses must be tested using appropriate tools in addition to simple percentage analysis (which is only descriptive of the sample). The data analysis must be completed before the second review.

6 WORK TO BE DONE

- Further work to be completed is to be listed.

REFERENCES

1. The list of journal papers reviewed must be documented as per the format sent in the guidelines earlier.
